Rullway Stocks - Government Weak-Silver Certificates NEW YORK, July 13.-The speculative temper underwent a change today and the movement was in sharp contrast to the strength that had characterized the close of the preceding week.

This was due to the executing of realizing orders and hammering by the bears, induced by the absence of London buying orders in this market, a trast to the strength that had charac-

fried where the foreign exchanges, engagement of gold for export and disturbing rumors of the beginning of gold hearding. The volume of business was not large, but the dealport and disturbing rumors of the be-ginning of gold hoarding. The volume of business was not large, but the deal-ings were fairly well distributed with of business was not large, but the dealings were fairly well distributed with sugar leading in the industrials and St. Paul in the railroads in point of activity. The industrials were the objective points of attack. The initial prices were slightly higher under the influence of a firm market for Americans in London. A reactionary movement set in almost at the outset which was most pronounced in the industrials and grangers. The early selling movement soon abated and a steadier tone prevailed, but the market became almost slagnant on a moderate raily from the extreme low points. Shortly after II o'clock, however, the bears redoubled their efforts. Declines were scored in the general list, extending to 2½ per cent in Northwest. On the down grade an increased activity was noted. The downward movement was continued until after midday on the unfavorable rumors elsewhere referred to. Another interval of duliness and comparative steadiness occurred at the law lead until the last bone when see

Mr. Walsh's appointment was somewhat of a surprise to him, as he had not been an active candidate for the position. He was selected Saturday evening and was notified that he could have the position if he wanted it.

Mr. Walsh today met Senator Jones, the new chairman of the national committee, and told him he would accept. The two repaired to the office of S. O. Sheerin of Indiana, the out-going secretary, who turned over the books,
